## METHODOLOGY

The FTI Consulting 2021 Resilience survey incorporates the views of 2,869 decision-makers in large companies across all G20 countries. Large companies are defined as those with over 250 employees, or over USD 50 million in annual global turnover, or with a balance sheet of over \$43 million. From 7th July to 20th July 2021, FTI Consulting's Strategy Consulting & Research team conducted a quantitative survey with respondent profiles replicating those used in the previous waves of Resilience Barometer<sup>®</sup> research. 73% of respondents were C-suite and senior managers/executives from privately owned companies, while 27% were from publicly listed companies.

FTI Consulting is an independent global business advisory firm dedicated to helping organisations manage change, mitigate risk and resolve disputes: financial, legal, operational, political & regulatory, reputational and transactional.
